

Underlayments TCA Handbook Submission Questions

Other-Types

ISSUES	DESCRIPTION
Surface Condition	What subsurface criteria is required to use this product? What minimum surface strength is needed?
Moisture/Hydrostatic Pressure	Is there a hydrostatic pressure limitation? If so, what is it? Is there a moisture limitation? If so, what is it?
Curing Compounds	Specify how curing compounds need to be addressed.
Crack Treatment	How are cracks taken care of by the product or how do they need to be addressed?
Profile	Specify what ICRI surface CSP textures are acceptable.
Existing Finishes	How does the product work with existing finishes? Is complete scarification necessary?
Wood Framing	What are the specifications of the product when using wood framing?
Deflection	How much deflection is acceptable with the underlayment?
Heating elements	What are the product specifications when using heating elements?
Compressive strengths	What is the compressive strength of the product?
Expansion & Movement joints	Are there any specifications for expansion and movement joints? If so, name them.

Primers Are primers required for the product? If so, what are they?

Thickness What is the thickness of the product?

SUBMITTAL REQUIREMENTS

Product Data Sheet Submit a product data sheet which is up to date and clearly legible.

MSDS sheet Submit an MSDS sheet which is up to date and clearly legible.

Package size availability List how the product is packaged

Specification Test Methods List any and all test methods that are applicable for the evaluation of the product.

Material Specifications List any and all material specifications that are applicable for the evaluation of the product.

Installation Specifications List any and all ANSI installation specifications listed on page 6 of the TCA Handbook that are applicable to the product.

Intended Uses List any and all areas of intended use for either interior or exterior - below or above grade - or any other uses

Areas of Current Availability List any and all areas of availability of the product.

Product Compatibility List any products that are known to be compatible with the product.

Product Incompatibility List any products that are known to be incompatible with the product.

Other Provide any further information needed to understand the submittal
