## **TILE IS THE NATURAL CHOICE BROCHURE AVAILABLE!**

Tile Council of North America (TCNA) is pleased to announce the publication of *Tile is the Natural Choice - Environmental and Cost Evaluation* brochure.

This brochure, which will be featured in the 2009 TCA Handbook, addresses one of the main concerns in building design today – environmental sustainability. Written by TCNA’s Green Initiative Committee, it contains information on how tile can contribute LEED® points to a project, 12 reasons to choose tile, an independent life cycle cost analysis of 17 floor coverings, and how tile is environmentally-friendly.

Savvy designers already know tile is an excellent choice; this brochure outlines why tile - environmentally-friendly, durable, healthy, and low maintenance - is the natural choice!

For information on ordering individual copies of the *Tile is the Natural Choice* brochure or the 2009 TCA Handbook, visit [www.tileusa.com](http://www.tileusa.com), or call Tile Council at 864-646-8453.
